MHOG Connection Fee Checklist

Note: MHOG connection fees are applicable for New Connection(s) or REUs not previously fully assessed by the Township or for a change in use for additional REUs on a parcel

Calculate MHOG Portion of Connection Fees:

Connections (REUs) _____ x \$3,500/REU = _____

Definitions

- Meter Package Fee** Charge for meter dependent on size, including horn/flanges and MXU Radio Read Device.
- Water Connection Fee** The connection fee is charged on a per Residential Equivalent User (REU) basis for new users or users that increase their use of the system. The connection fee covers the costs associated with capital improvement projects required to maintain adequate production and distribution capacity for the water system.
- Sewer Connection Fee** The connection fee is charged on a per Resident Equivalent User (REU) basis for new users or users that increase their use of the system. The connection fee covers the costs associated with capital improvement projects required to maintain adequate collection and treatment capacity for the waste water system.
- Sewer Clean Out** \$25 fee for GO wastewater customers charged to new homes for sewer line cleaning following completion of the home or subdivision. This fee covers typical construction debris deposited into the sewer line during construction.
- Flushing Fee** \$50 fee charged to new buildings connecting to the MHOG water system for unmetered water loss during construction, which may include water used to disinfect, flush, and test the water pipes.
- Live Tap Inspection Fee** In cases where MHOG does not install the lead, a \$250 inspection charge for new construction that requires a live tap to the municipal water or sanitary sewer system. Fee covers MHOG staff time to inspect the live tap, generate a lead sheet, and update in GIS System.
- Other Fees** Specific fees assessed by Township or required for unique situations associated with connection to the sanitary sewer or water system.
- REU** A Resident Equivalent User (REU) is defined as the quantity of water used or wastewater discharged from an ordinary single family dwelling unit. In computing the number of REUs for commercial users refer to the Commercial Equivalent User Table. Typically, the number of REUs equals the number of connection fees to charge a property.
