ARTICLE 23 of the Genoa Township Zoning Ordinance describes the Variance procedure and the duties of the Zoning Board of Appeals.

Each application for Variance is considered individually by the ZBA. The ZBA is a board of limited power; it cannot change the Zoning Ordinance or grant relief when it is possible to comply with the Zoning Ordinance. It may provide relief where due to unique aspects of the property with strict application of the zoning ordinance to the land results in practical difficulties or unnecessary hardship.

The applicant is responsible for presenting the information necessary to support the relief requested. While much of the necessary information is gathered through the completed application, other information may be gathered by on-site visits, other sources, and during the ZBA meeting. ZBA members, township officials and township staff may visit the site without prior notification to property owners.

Failure to meet the submittal requirements and properly stake the property showing all proposed improvements may result in postponement or denial of this petition.

Please explain the proposed variance below:

1. Variance requested/intended property modifications: _____

The following is per Article 13.02.05 of the Genoa Township Ordinance:

Criteria Applicable to Wetland Setback Variances. No variance in the provisions or requirements of the Ordinance shall be authorized by the Board of Appeals unless it is found from the evidence that all of the following conditions exist:

Under each please indicate how the proposed project meets each criteria.

13.02.05 Variances from the Wetland Setback Requirements

The setback is not necessary to preserve the wetland's ecological and aesthetic value;

The natural drainage pattern to the wetland will not be significantly affected;

The variance will not increase the potential for erosion, either during or after construction;

No feasible or prudent alternative exists and the variance distance is the minimum necessary to allow the project to proceed;

MDEQ permit requirements have been met and all possible avoidable impacts to wetlands have been addressed.

Any Variance not acted upon within 12 months from the date of approval is invalid and must receive a renewal from the Zoning Board of Appeals (ZBA).

After the decision is made regarding your Variance approval a land use permit will be required with additional site plan and construction plans.
