ARTICLE 19
SPECIAL LAND USES

Sec 19.01  STATEMENT OF PURPOSE

This Article is intended to provide regulations for Special Land Uses which may be compatible with permitted uses in zoning district, under specific locational and site criteria. This Article provides standards for the Planning Commission to determine the appropriateness of a given Special Land Use covering factors such as: compatibility with adjacent zoning, location, design, size, intensity of use, impact on traffic operations, potential impact on groundwater, demand on public facilities and services, equipment used and processes employed. Approval of any Special Land Use requires a Special Land Use Permit.

(c) The Planning Commission shall hold a public hearing on the special land use application in accordance with the Michigan Zoning Enabling Act (Public Act 110 of 2006). Notice of public hearing shall be provided for in accordance with section 21.05. (as amended 12/31/06)

(d) The Planning Commission shall recommend approval, approval with conditions or denial of the Special Land Use Request, Site/Sketch Plan and Impact Assessment to the Township Board.
If the application is determined to be incomplete or more information is required, then the Planning Commission may either: 1) table the request and direct the applicant to prepare additional information or revise the plan; 2) return the request for additional staff review or analysis; or 3) recommend denial of the request. If the plan revisions are determined to be significant by the Planning Commission, they may elect to conduct another public hearing.

(c) For any use requiring special land use approval, the site or sketch plan for such use shall require Township Board approval, based upon a recommendation of the Planning Commission.

(f) Township Board Action: Following receipt of the Planning Commission's recommendation, the Township Board shall take one of the following actions on the Special Land Use, Site/Sketch Plan and Impact Assessment.

1. Table: If the application is determined to be insufficient, does not fully respond to Planning Commission conditions or more information is required, then the request may be tabled. The Township Board shall direct the applicant to prepare additional information, revise the plan or direct the Township staff or consultant's to conduct additional analysis.

2. Reconsideration: If the Township Board believes there is new information which might modify the recommendation of the Planning Commission, the Board may return the application with the new information to the Planning Commission for reconsideration.

3. Approval: Upon determination that a special land use and plan proposal is in compliance with the standards and requirements of this Ordinance and other applicable ordinances and laws, the Township Board shall approve the application.

4. Conditional Approval: The Township Board may impose reasonable conditions with the approval of a special land use, to mitigate impacts associated with the proposed use or activity to ensure that public services and facilities affected by a proposed special land use or activity will be capable of accommodating increased service and facility loads generated by the new development; protect the natural environment; ensure reasonable compatibility with adjacent uses of land and the overall character of the Township, to the extent practical for the use; ensure the standards of this Article and the Zoning Ordinance are met.

5. Denial of Special Land Use and Site/Sketch Plan Application: Upon determination that a special land use or site/sketch plan proposal does not comply with standards and regulations set forth in this Ordinance, or requires extensive revision in order to comply with said standards and regulations, the Township Board shall deny the application. Resubmittal of an application which was denied shall be considered a new application.

(g) For Special Land Uses which are temporary by nature, such as sand and gravel mining or carnivals, the Planning Commission shall also recommend time limits for the operation to the Township Board. The Township Board shall specify time limits
with any approval and state procedures for renewal of the Special Use Permit, if applicable.

(h) Compliance with conditions: The applicant shall submit information and plans which demonstrate compliance with the conditions for administrative approval by the Zoning Administrator within sixty (60) days of the date of conditional approval and prior to issuance of a special land use or land use permit, or the submission shall be considered null and void. The Zoning Administrator may submit the revised plan to the Planning Commission for comments or approval.

(i) Recording of decision: Records of the reasons for the actions of the Planning Commission and the Township Board, and any conditions attached approvals, shall be kept and made a part of the minutes of the Planning Commission and the Township Board. A record of conditions imposed shall be maintained. The conditions shall remain unchanged unless an amendment to the special land use permit is approved by the body which approved the original special land use permit.

(j) Conditions of any approval are attached to the land and will remain through subsequent owners, except an expiration date for the special land use may be specified if the special land use is considered to be temporary in nature.

(k) Inspections: The Zoning Administrator shall make periodic investigations of developments authorized by special land use permit to determine continued compliance with all requirements imposed by the Planning Commission or Township Board and this Ordinance. Non-compliance with the requirements and conditions approved for the special land use shall constitute grounds for the Township Board to terminate said approval following a public hearing. The hearing shall be as required by section 19.02.04(c). (as amended 3/5/10)
